

**Coledale Horseshoe, Braithwaite. 6hrs, 9 miles, 14.5km, 1200m elevation**

This route has five Wainwrights but if you're feeling energetic you can also add Grassmoor, Causey Pike and Barrow to make it 8! Regardless of the peaks, this route can have stunning views over the valley behind, and a spectacular view of the mountains towards the central lakes. It starts and ends in Braithwaite, you can go either way round but we personally prefer getting the climb of Grizedale Pike done first, and of course stopping at The Coledale Inn for a well deserved drink!
